In Installing the Application

**To install in Windows Xp/Vista/7/8/10, insert the installation disk
The autorun installation process should begin shortly. If not:**

To Install in Windows 10:

1. Place the disk into your disk drive.
2. Right-click on **START** icon (the little window icon in the lower left of the screen) then click on **File Explorer** and then double-click on the drive in the right-side panel that is displaying the title of this software
3. Follow the instructions that appear on the screen.

To install in Windows Xp/Vista/7/8:

1. Place the disk in your disk drive.
2. Select **Start** from the Desktop screen, then click on **Run**
3. Type in **d:\setup.exe** and press **ENTER**. (If your disk drive is not **d**, change the **d** to the letter associated with your disk drive).
4. Follow the instructions that appear on the screen.
