Part Includes

- 1 - Bracket
- 4 - Mounting Screws
- 1 - Velcro Strip

Corvette Quick Removal License Bracket

Tools Needed

Search: **License**
www.mamotorworks.com

This License Bracket can be mounted in a variety of locations, and only requires screws and velcro to attach.

STEP 1.

Choose mounting location.

STEP 2.

Mount 12" velcro on tab between bumpers and desired side of tab. Depending on mounting location.

STEP 3.

Mount both hook and loop on tab, remove peel off strip and stick to bumper.

STEP 4.

There are two holes in the outer ends of the tab. Using each hole as a pilot, drill 2 small holes in the bumper smaller than the screws, one on each end of tab. If mounting below the bumper, use all four holes and screws.

STEP 5.

With Phillips screwdriver, screw in the 2 screws to help hold bracket in place. Do not overtighten.

NOTE: When mounting below bumper – use all 4 screws – in pre-drilled mounting holes.

NOTE: Extra velcro has been supplied to stick to back side of bracket to act as a cushion, to help keep from rubbing bumper.

Now... It looks good... and no more made up stories to tell to avoid a ticket.
