C5 License Plate LED Light Bulb Kit

Tools Needed

Step 1. Using a #15 Torx screwdriver, remove the 2 screws holding the license light in place.

Step 2. Remove the light housings, twist the grey socket 1/4 turn counterclockwise to remove it from the housing.

Step 3. The bulb may be hot, so use a shop towel to grab it and remove it.

Description (cont.)

Step 4. Turn on the lights. Plug in the LED bulb. If it doesn't light, turn it 180 degrees and re-insert.

Step 5. Re-insert bulb socket into housing and twist 1/4 turn clockwise. Re-attach housing with the 2 torx screws and repeat for the second housing.
