Installation Tip: For best results, a silicon adhesive or other automotive bonding type material, is recommended by the manufacturer. This can be purchased at any local hardware store.

STEP 1.

(Optional) Apply silicon adhesive or other automotive bonding type material to the smooth side of the bumper reinforcement.

STEP 2.

Place the reinforcement smooth side up under one side of the rear bumper.

STEP 3.

Manually adjust the piece by squeezing it until it snaps into place.

STEP 4.

Repeat for other side.
